Welcome to the SIGGRAPH online networking tool!

We look forward to seeing you at SIGGRAPH 2013! To help you maximize your connections, we’d like to welcome you to the integrated networking platform. This is a unique benefit for registered attendees that can help you connect with other attendees before, during, and after the event.

Once you get started, you can:

• Search and browse a complete attendee directory with personal profiles
• Send and receive private messages with all attendees
• Set up on-site meetings
• Stay up-to-date with the full agenda and speaker lineup

Get Started

You will receive an invitation to the site shortly after confirming your conference registration. (Make sure to check your spam folder as invitations sometimes get caught by spam gremlins.)

Follow the link in the invitation to access the site. The first time you follow the link, you will be prompted to set a password. Your login is the email used during registration. You may also activate your profile online by visiting mySIGGRAPH.zerista.com. To set up a personalized account, use your Registration ID as your username and your last name plus “2013” as your password:

**Username:** Registration ID
**Password:** LastName2013 (all lowercase)

Once you have set up your profile online you can then download the App from either the Apple Store for Apple devices or the Play Store for Android devices.

**NOTE:** You can visit mysiggraph.zerista.com at any time by directly entering in the URL on your PC or smartphone.

If you need assistance logging in, click the *Need Help Logging In* link from the login page or email support@zerista.com.
Update your Profile

The first time you log in, you will be prompted to update your profile.

To set up your profile:

1. Click My Page after logging in.
2. Click Edit My Profile next to your name.
3. Complete the information and click Update Profile at the bottom of the page.

Things to consider when updating your profile:
- Upload a picture! Nothing is more recognizable than your face!
- Don’t forget to tell us about you (Step 2 on the profile page). The system uses this information to make recommendations to you of attendees and exhibitors that have similar interests.
- Social media! Help people learn more about you by including your web content (Step 3 on the profile page).
Go Green!

You can add assets such as PowerPoints, PDFs, Word Documents, YouTube videos, etc. to your profile, putting information at the fingertips of other attendees. You can add files to your profile by clicking Assets under the My Page tab.
Connect with Attendees and Exhibitors

You can set up meetings and send messages to other attendees by finding a person on the Attendees tab and clicking the icon to the right of their name. Following a person, by clicking the plus sign, will add a person to your personal list of contacts. Your contact list is located under the My Page tab. You can do the same with exhibitors through the exhibitors tab.
Create Your Own Schedule

You can browse a list of events through the Events tab. Click on the day to see the events for a particular day and click on the name to learn more about the event. You can also view all of the events per a particular track by clicking on the red links above the days of the week. From here you can also print the entire conference schedule.
Create Your Own Schedule (cont.)

Once you find an event of interest, add the item to your personal schedule by clicking the plus sign. After you add items to your schedule, visit My Page > Schedule and print your personal schedule.
Add to Conversations

Check out the Conversations tab to ask a question of other attendees or to contribute to a discussion. Just click on a topic to reply to a conversation, or click Create to start a new conversation.

You can also post a comment to the home page of the event site. Link up your social media accounts, like Facebook and Twitter to automatically post your comment out to your other accounts. In addition, you can post comments for specific sessions by viewing the session.
Need Help?

We want to make sure you get the most out of the site! If you need help with anything, please send an email to support@zerista.com.
